

The second meeting was held in the Finish Folk School in Gothenburg (Sweden).

The meeting started with a tour around the school and we had the opportunity to know the programmes they offer.

The **most relevant topics** in this project are:

- ICT –new technologies –digital competences
- Pedagogy and didactics
- Key Competences –basic skills.

### Expected results in the project

- **A description of the best practices** from the partners concerning WBL.
- **A new procedure** for realization of work based learning.
- **New models and procedures** to enable the visualization of the skills and competence of individual using the means of social media and digital learning environments.
- Inclusion of **transversal skills and knowledge** into all actions.

### Intellectual outputs

#### IO 1

Guidelines for using social media in work-based learning procedure with learning process description.

- The viewpoints of the work place
- The viewpoints of the learner
- The viewpoints of schools (teachers)

#### IO2

A description of the best practices from the partners concerning the WBL.

- To learn about different ways how to implement WBL
- To develop new concepts for digital learning solutions
- To cooperate with working life
- Peer learning

The success stories will be integrated with the main homepage and there will be one blog for each partner/nationality as well.

We met the new partners, Bridgewater and Taunton College. Being in charge of the communication work package, they proposed using Blackboard platform as a communication tool instead of Google drive. They also will design the website which will give visibility to our project.

We took part in a workshop/training about how to create a blog using Word Press. Following months each partner will create their National Blog and link to the website.
